

Seligent Announces Collaboration with Altegra

Partnership to support several accounts across the Nordic region

PUNE, INDIA – September 29, 2016 – Seligent, a specialized PLM/IT solutions provider for the Engineering industry announced today a collaboration with Altegra, a Stockholm based PLM/IT solution provider for Engineering Industry. The collaboration will support several accounts across the Nordic region.

Speaking on the occasion, Prashant Ganu, Director of Seligent Consulting said *“The leadership at Altegra and Seligent have a long history of providing solutions in the Engineering industry. A formal collaboration will help Altegra offer a unique combination of Nordic based onsite as well as India based offshore mix of teams, providing solution consulting services.”*

Lars Nydahl, Managing Director at Altegra said *“With Seligent, we see a partner that can truly offer value to our customers with the right mix of industry knowledge and technology expertise.”*

From Left, Prashant Ganu, Lars Nydahl, Kimmo Solla, Rahul Kango

The partnership will add value to several customers in the engineering industry, both in terms of improvement in engineering processes and usage of technology best practices.

About Seligent Consulting.
